CHARLES HULL CONTRACTING

ENVIRONMENTAL POLICY

As a leading provider of contracting services to the mining and civil engineering industries, Charles Hull Contracting seeks to avoid, prevent, mitigate, and remediate the environmental impacts of our activities.

To fulfil this commitment, Charles Hull Contracting will:

- Comply with applicable environmental legislation, and all business-specific environmental standards and processes.
- Ensure effective risk management systems, practices and documented plans are in place that manage and mitigate environmental impacts and pollution from our activities.
- Monitor and measure our impacts.
- Consider environmental, social, and cultural aspects in the planning stages of all business activities.
- Develop an environmentally aware and responsible workforce, by providing the necessary information, instruction, training, or supervision, which enables our workforce to operate in an environmentally responsible manner.
- Ensure that the views of all stakeholders are considered when developing project systems.
- Implement effective and transparent engagement, communication and independently verified reporting arrangements with our stakeholders.

All CHC employees and contractors have a shared and personal responsibility to ensure our business activities are managed in accordance with this Environmental Policy.

Richard Hull

Director
